At this stage we do not know of any steam trains planned for 2011 but we will advise everyone when we receive any further information.

#### **ROBERTSON HISTORY**

Robertson Heritage Railway Station has a lot more material on Robertson history than the photographs on displaying the Railway Station. Would you be interested to find out about this and see what we have? Maybe you have more information to add. Perhaps you would like to become part of a Robertson History group in RHRS? A History day/evening can be arranged or a weekly/monthly time to meet. *Helen Tranter* would like to hear from you (phone 4885 1394 or e-mail - [dh.tranter@bigpond.com](mailto:dh.tranter@bigpond.com)) or come to the Station on the Vintage Car Day and talk about it.

## FREQUENTLY ASKED QUESTIONS

Often we are asked questions by visitors relating to the station, its precinct and rail operations. We are compiling a list of questions and their respective answers and in this and subsequent editions we will include one or two of these questions and its answer for your interest.

**1. When was the last steam-hauled regular passenger service through Robertson station?**

The last steam-hauled regular passenger service was on 20 February 1967, when Thirroul-based 30 class 4-6-4 tank engine 3077 hauled the regular two cars on the return journey from Moss Vale to Wollongong.

**2. What is the name of the tall shrub with red flowers growing on the top of the embankment opposite Robertson railway station?**

This has the botanical name of *Alloxylon pinnatum*. Although it is not a true waratah (ie not from the genus *Telopea*), it has been given the common name of 'Dorrigo waratah'. Typically it is at its flowering best in the summer months of December-January.
